## ALMA MATER

TOVEY

*Pure as the dawn on the brow of thy beauty  
Watches thy soul from the Mountains of God  
Over the fates of thy children departed  
Far from the land where their footsteps have trod  
Beacon of hope in thy ways dreary lighted  
Pride of our hearts that are loyal and true;  
From those who adore unto one who adores us,  
Mother of Mothers, we sing unto you. —Brodie Payne*

# NOTES ON CEREMONY

## The Mace and Batons

These symbols of the authority and history of the University are made from newel posts from the original main staircase of Old Main, the oldest University building. They are carried by members of the faculty who have served as chairpersons of the University Senate or Campus Faculty. The Chief Marshal (macebearer) is the current chairperson of the Campus Faculty.

## Marshals' Gowns

The gowns worn by the marshals are of the traditional University color, Cardinal, or Razorback Red.

## Honor Stoles

Cardinal or white stoles denote students who are candidates for University-wide honors. White represents High Honors (summa cum laude) and Cardinal represents Honors (cum laude).

## Academic Regalia

The styles of gowns differentiate degree level. Trim on doctoral gowns indicate nature of the degree (black or dark blue - Ph.D.; light blue - Ed.D). The trim on all hoods identifies degree field. Lining of hoods denotes the color(s) of the institution awarding the degree. Certain members of the faculty wear distinctive gowns and hoods authorized by their doctoral institution.

## Honorary Degree Commendation

*Mary L. Good*

Dr. Mary L. Good exemplifies the highest traditions of scholastic achievement in this country. She personifies the progress women are making in physical science and engineering fields from which they previously were generally excluded.

While Dr. Good is primarily a chemist, she is currently doing research in engineering at Louisiana State University. She is making contributions to the maritime industry through her research in developing chemical coatings which will prevent the fouling of ship bottoms, a field of research of immense economic benefit to sea commerce throughout the world.

Dr. Good holds a distinguished Chair on the Louisiana State University faculty, and she also serves that institution through membership on the Election Board of the Engineering Hall of Distinction and on the Louisiana State University System Nuclear Energy Committee. Her scientific status is exemplified by the invitations she has accepted for lectures at 12 international conferences and symposia in Europe and South America. She is a member of the National Board of Directors of the American Chemical Society, the National Science Foundation Advisory Panel on Chemistry, the Chemistry Oversight Committee of the Oak Ridge National Laboratory, and the Review Committee on Medicinal Chemistry of the National Institutes of Health.

A native of Texas, Dr. Good obtained her bachelor of science degree from Arkansas State Teachers College (now the University of Central Arkansas), and her master's and doctoral degrees in inorganic and radiochemistry from the University of Arkansas.

## Honorary Degree Commendation

*William L. McMillan*

Dr. William L. McMillan is a scholar and scientist of national and international reputation.

Dr. McMillan is the winner of the 10th Fritz London Memorial Award, one of the world's most coveted honors in the field of physics. The award was conferred on Dr. McMillan at the 15th International Conference on low temperature physics that was held in Grenoble, France, last August, for his theoretical contributions to superconductivity. The knowledge he has created may help scientists identify materials that are superconducting at temperatures higher than materials currently available. Such superconductors would make possible the development of ultrafast computers without heat dissipation problems, more efficient energy generation and transmission systems, and advanced scientific and medical instruments.

Dr. McMillan also received the prestigious John Simon Guggenheim Fellowship in 1977-78.

Dr. McMillan is a native of Little Rock. He received most of his formal education in Arkansas, including his bachelor of science and master of science degrees from the University of Arkansas. He obtained his doctoral degree in physics from the University of Illinois. He currently serves as Professor of Physics on the University of Illinois faculty.

He started his professional career as a research engineer with the IBM Research Center in New York, and later joined the technical staff of the Bell Telephone Laboratories in New Jersey. Twice he has been given sabbatical leaves to study at European institutions, the Cavendish laboratory in Cambridge, England, and the Universite de Paris-Sud in Orsay, France.

## Distinguished Alumni Citation

*Henry Woods*

It is difficult to achieve the pinnacle of professional leadership. It is enviable to possess high intellectual and scholastic stature. It is inspiring to perform ably in civic and governmental leadership capacities.

To Henry Woods all of these qualities seem to come naturally.

Mr. Woods perhaps takes his greatest pride in, and has aroused the most widespread admiration for, his superior scholarship in the legal field. While such scholarship normally is conducted in a university or other academic milieu, Mr. Woods has taken time from his busy and successful law practice to author a book, *The Negligence Case, Comparative Fault*, which is considered a model work by the American legal profession.

Mr. Woods has served as President of the Arkansas Bar Association and as a member of the National Board of Governors of the Association of Trial Lawyers of America. He has served in various other capacities in a number of professional organizations, and in 1975 he received the "Outstanding Lawyer Award" of the Arkansas Bar Association. Early in his professional career he served as a Special Agent for the Federal Bureau of Investigation.

Henry Woods will also be long remembered by many Arkansans for his conscientious and dedicated leadership in the fields of human rights and civil rights, particularly during the two terms of former Governor Sid McMath when Mr. Woods served as Mr. McMath's Executive Secretary.

Mr. Woods obtained his bachelor's degree from the University of Arkansas in 1938 and graduated cum laude from the University's School of Law in 1940.

## Distinguished Alumni Citation

*David Pryor*

Beginning with his student years at the University of Arkansas, David Pryor has been a dynamic leader and achiever throughout all of his adult life. He is the only man in Arkansas history who has been elected successively to the state legislature, the United States House of Representatives, the governorship, and the United States Senate.

His articulate and exemplary leadership was demonstrated on this campus when he was elected President of the Blue Key leadership fraternity, a member of the Student Senate, and president of his social fraternity.

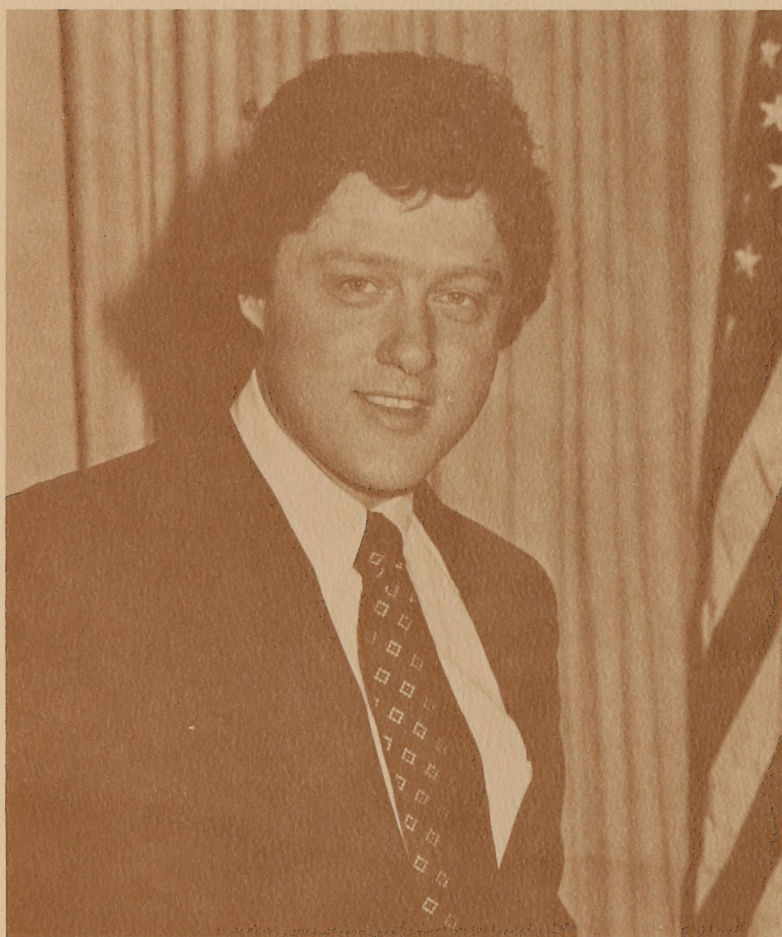

While still a law student at the University he was elected a member of the House of Representatives in the Arkansas legislature where he served three terms.

Mr. Pryor was first elected to the Congress in 1966 and served three full terms, arousing national attention for his compassionate legislative leadership in behalf of the elderly.

Elected governor in 1974 and re-elected in 1976, Mr. Pryor's tenure was distinguished by a broad spectrum of progress in the State's educational, economic, and cultural development. He won his race for the United States Senate in 1978 against two formidable opponents who also had served in the Congress.

Mr. Pryor earned his bachelor's degree, as well as his law degree, at the University of Arkansas and earlier attended Henderson State University.
